Running Compact

1) Place diskette containing Compact.Com file into drive A.
2) Place diskette containing MTBRC file into drive B.
3) On Keyboard, type COMPACT and hit return.
4) Follow user freindly prompts on the display.

Console Display Format

```
        Cray-2
        Boolean Compactor
        Revised  7-26-83
```

What is the two letter module name? MT
On which disk is the boolean reconstruction file? B
On which disk do you want the compacted files stored? B

5) Compact will run to completion and, after a few minutes, will prompt you that it is done.

6) Drive B diskette should now contain the files;
   MTBRC, COMPACT.MT, SIMFILE.MT, IOTERM.MT, TERMS.MT
   These files are for future use.
